Management Trainee – Business Analyst

ReBIT is hiring Freshers from the Batch of 2025.

Interested candidates may go through the JD, and apply as per eligibility criteria.

Life at ReBIT:

Serving since 2016, Reserve Bank Information Technology Pvt. Ltd. (ReBIT) is RBI's subsidiary for Enterprise Technology and Allied Services.

Home | Reserve Bank Information Technology Private Limited (ReBIT)

Why Work at ReBIT:

We are an ambitious, employee-first organisation that believes in empowering our employees to grow alongside the organization's goals and perform to their full potential.

The hired professionals will be a part of our 790+ workforce and will have opportunity to work in active RBI engagements in which ReBIT is currently involved. We're set to build a world class team of skilled professionals motivated to make a nationwide impact.

They will be a part of our centres of excellence focusing on multiple technologies and will gain exposure in various domains such as Forex, central banking, financial markets, risk monitoring, fintech, and so on.

Role Objective:

Business Analyst at ReBIT is a highly motivated key player bridging the channel between clients, end users and software delivery team. The primary objective of a Business Analyst is to understand the client requirement and business logic. The Business Analyst is responsible to analyse and design system processes, assess current state and define
